In follow up to our sermon series in Jan, we invite families of all ages to come together for this 4 week pot luck dinner style group where together we will tackle the practical side of blending character into our modern day use of technology.

Making conscientious choices about technology in our families is more than just using internet filters and determining screen time limits for our children. It's about developing wisdom, character, and courage in the way we use digital media rather than accepting technology's promises of ease, instant gratification, and the world's knowledge at our fingertips. And it's definitely not just about the kids.
